

In principle

Is there a fact to find?

status in this collection: open

is the question
well posed?

**Could any AI be conscious
at all?**

status in this collection: open

if yes, what must
be copied?

**What exactly would have to
be copied?**

status in this collection: open

is the living body
part of it?

**What role do the living
body, interoception and
feeling play?**

status in this collection: open

In practice

How could anyone tell?

status in this collection: open

apply it to
today's systems

**Are today's systems
candidates?**

status in this collection: leaning

what should
we do?

**What follows for ethics
and policy?**

status in this collection: open

What to do
